GENERAL INVESTIGATIVE DIVISION

Attached is a summary of investigation to date regarding burglary of FBI Resident Agency (RA), Media, Pennsylvania, 3/8-9/71. Logical investigation of all establishments within proximity of RA possibly having knowledge of unusual activities canvassed with negative results. Investigation in this regard continuing. Activities and whereabouts of certain suspects being checked. Female who came to RA in January, 1971, identified as [redacted] Philadelphia files indicate [redacted]

[redacted] Haverford College, Pennsylvania, participated in anti-Vietnam demonstration led by [redacted] recipient of press release from Citizens Committee to Investigate the FBI. [redacted] possible connection with case being vigorously pursued. u

On 2/24-25/71, an unidentified white female appeared at the Media RA allegedly conducting a survey concerning fair employment practices for women. Philadelphia Police Department artist prepared sketch of this unidentified female. This sketch is being distributed to all Philadelphia Agents. Philadelphia requests Bureau authority to furnish this sketch to local news media. Philadelphia has been instructed not to furnish this sketch at this time to local news media but to vigorously pursue efforts to identify this individual.*u

Attached pertains to an incident which occurred at the Media, Pennsylvania, Resident Agency (RA) on 2/24-25/71, which may be related to the recent burglary of the RA. A young white female appeared at the Media RA on the above date and advised she was conducting a survey concerning fair employment practices for women and indicated an interest in whether women were receiving equal job opportunities and equal pay for work assignment. *u*

Investigation regarding twelve other business establishments, immediate vicinity of Media RA fails to indicate this unknown female contacted these firms regarding the survey. Eastern Offices being furnished background of incident and description of unknown female to determine if similar incidents have occurred in other field divisions. Investigation continuing to identify this female.

In connection with our investigation into the March 8, 1971, burglary of the Media, Pennsylvania, Resident Agency by a group alleging to be the Citizens Commission to Investigate the FBI, our Philadelphia Office has suggested we explore the possibility of obtaining a court order to forestall the public disclosure of FBI documents which were taken. *u*

This protective order, which could be issued by the United States District Judge, Eastern District of Pennsylvania, could be worded to require judicial review of purported stolen FBI documents to preclude the publishing, dissemination, or disclosure of any FBI data. Such an order, if granted, would also protect persons who may have in confidence provided information to the FBI, plus it would protect injury to reputation as well as injury to the person which could come from unauthorized disclosure of "raw files." *u*

ACTION: While there appears to be no legal precedent for such an order, because of the ramifications involved it is felt we should explore the suggestion further. Accordingly, if approved and in conjunction with the legal aspects involved, a representative of the Office of the Legal Counsel, accompanied by a representative of the General Investigative Division, will discuss this matter with appropriate Department of Justice officials. *u*

By memorandum of 3/12/71, the Domestic Intelligence, Special Investigative, Administrative, and General Investigative Divisions set forth an assessment of the material, based upon a review of serials and other memoranda missing after the burglary of the Media, Pennsylvania Resident Agency on 3/8/71, allegedly by the Citizens Commission to Investigative the FBI.

Efforts are continuing to identify all the material which has been stolen from the Media Resident Agency. In order that we may have an accurate, readily available list of the items stolen, each division having supervisory responsibility over the substantive case to which the stolen material pertains, should list this material in a log. Up to date copies of this log should be furnished to the General Investigative Division.

ACTION: This procedure should be implemented immediately.

On the night of March 8-9, 1971, above Resident Agency was broken into by unknown individuals at which time desks and filing cabinets were pried open and serials containing investigative information taken. Entry into FBI space was made by jimmying one of two permanently locked doors. No attempt was made to open locked combination safe-type cabinet containing weapons, Handbooks, and other security-type information. u

By airtel 3/10/71 SAC Philadelphia was instructed to obtain explanations from responsible Resident Agency personnel as to why serials containing investigative information were not stored in safe-type cabinet. u

By letter 3/14/71 SAC submitted explanations of 7 Special Agent personnel assigned to Media Resident Agency in which all personnel uniformly explained reason for not keeping serials in safe-type cabinet was that sufficient space was not available in cabinet. u ST 107 REC-83 52-94527-108

SAC explained he had instructed Senior Resident Agent in September, 1970, that Bureau was considering furnishing safe-type cabinets to certain Resident Agencies for safekeeping of serials, Manuals and firearms. SAC said that when Senior Resident Agent had determined that all confidential material, including serials in Resident Agency could not be maintained in the safe-type cabinet for lack of space, he should have consulted SAC in order that a proper procedure for safekeeping confidential items in Resident Agency could be accomplished. SAC stated Senior Resident Agent did not inform him that there was a problem in this regard. Accordingly, SAC recommended administrative action in form of censure and probation for Senior Resident Agent and censure for the 6 other Agents who lost serials charged to them as a result of the burglary in this instance. u

You instructed me today to conduct an on-the-spot inspection of the Media Resident Agency following the conclusion of the New York inspection on 3/19/71 to ascertain full facts of this situation. I am at a good point in the inspection at this time which will enable me to handle this assignment on Tuesday, 3/16/71. Accordingly, I have made arrangements to meet SAC Jamieson of the Philadelphia

Office and conduct this inspection tomorrow. Following this I will submit my analysis of the situation. In view of this I feel that we should defer action on the SAC's recommendations since this will give us an opportunity to more accurately appraise the explanations of the personnel involved. u

GENERAL INVESTIGATIVE DIVISION

Attached sets forth summary of investigation conducted to date regarding the Media Pennsylvania Resident Agency burglary. Special Agents of Media RA completed review of photographs in an effort to identify unknown female walk-in February 24, 1971, with negative results. Artists sketch of this unknown female distributed to all Agents assigned to Philadelphia and efforts continuing to identify her. U

[redacted], correspondent, Reuters News Service, refused to furnish elimination prints. Original copies of statement issued by "the Citizens Commission to investigate the FBI" and other physical evidence delivered to FBI Laboratory. Laboratory analyzed door jam and locks but microscopic tool marks made on hasp and lock casing are insufficient for identification purposes. Questioned typewriting on statement sent to [redacted] searched and not identified with any submissions in anonymous letter file. No identifiable marks on statement and no latent fingerprints developed. U

FROM : SA THOMAS F. LEWIS

SUBJECT: UNSUB, aka, Citizens Commission to

Burglary of FBI Resident Agency, Media, Pa.
3/8-9/71
TGP

On 2/24/71 SA THOMAS F. LEWIS, while on duty at the Media Resident Agency of the FBI, Media, Pa., was contacted by an unidentified female who appeared at this Resident Agency. U

This individual did not identify herself by name and SA LEWIS did not attempt to secure her identity since in his opinion no purpose was apparent to secure this identity since she was not actually interviewed by SA LEWIS nor did she interview SA LEWIS. Additionally, this woman was not furnishing information of investigative interest to the Bureau or information which required any follow-up action by the Bureau. U

This woman remained in the Resident Agency for approximately five minutes. During this time she was furnished several Bureau applicant-type hand-outs, including leaflets captioned "Jobs for Women in the FBI" and "Job Opportunities for Clerical-Technical Positions in the FBI." U

Attached hereto is a Xerox copy of an FD 302, dated 3/15/71, prepared by SA LEWIS, setting forth as completely as he can recall, his conversation with this woman. U

FEDERAL BUREAU OF INVESTIGATION

3/15/71

Date

SA THOMAS F. LEWIS while on duty at the Media Resident Agency of the FBI, Media, Pa., was contacted at about 1 p.m., February 24, 1971, by an unidentified female who appeared at the Media Resident Agency. This individual did not identify herself by name, and SA LEWIS did not attempt to secure her identity. U

She stated that she was doing research in this area compiling facts and figures on equal job opportunities for women and equal pay for women doing the same job as their male counterparts. She said that she was not inferring that there was discrimination against women but that the purpose of her survey was to develop this information from an objective standpoint and then incorporate these findings in a paper which would be presented at a conference on this matter to be held at Temple University the following weekend. U

This woman did not identify her organization by name, and she referred to the conference at Temple University under such general terminology as conference on employment opportunities for women. U

This woman remained in the Media Resident Agency for approximately five minutes. She specifically inquired as to whether any women worked in this resident agency, and in response she was told that no women worked there since the resident agency is manned only by agents, and there is no clerical staff assigned there. U

In response to a question posed by her, she was told that the FBI does not have female Special Agents. U

SA LEWIS asked this woman why she had singled out the FBI Office to secure the information for her paper. She replied that she was contacting all business offices in the immediate area and that we should not assume since it would be inaccurate that her inquiry was restricted to the FBI or to Government agencies only. U

On 3/15/71 at Media Pa. File # Philadelphia 52-7165
by SA THOMAS F. LEWIS/klw 52-94527-111 Date dictated 3/15/71

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

ENCLOSURE

At this point, SA LEWIS suggested the woman might desire to stop by the Philadelphia Office of the FBI since this is the headquarters office covering the entire Eastern, Pa., area including, of course, Media, Pa. She replied that her "territory" in connection with this project was limited to the immediate area of Media near the Resident Agency Office but that she would pass on this suggestion to another woman who in effect would be her counterpart doing the same type research in the geographic area encompassing the FBI Office in Philadelphia. U

This woman made inquiry as to what type positions are available to women in the FBI. In reply she was told generally of job opportunities available to women in the FBI, and she was furnished a number of Bureau handouts on the same subject matter. U

At this point the woman expressed appreciation for the courtesies extended, and she left the office. U

On leaving the office and as she was walking away from the front door of the office, she made a remark to the effect that she had either just been to the Draft Board immediately next door or was just going there in the course of her survey. U

It is noted that while talking to SA LEWIS, this woman appeared to have been making notes in a small notebook which she had been carrying in a briefcase. U

This woman is described as white female, age 25, 5'5" tall, approximately 120 pounds, dark brown hair, parted in the middle, slender build, fair complexion, smooth fine facial features, high cheek bones, wearing black horn-rimmed prescription glasses, a crocheted tam, multi-designed, basically green in color, dark green overcoat extending below the knee, high leather or plastic knee length boots. GENERAL INVESTIGATIVE DIVISION

Attached summarizes observations of Philadelphia Office regarding [] known activist, supporter of Berrigan group, and presently residing at Baltimore with two of indicted East Coast Conspiracy subjects. At public meeting, Catholic University, 3-15-71, [] made reference to Media Resident Agency burglary remarking, "We had been interested for some time as to what they had in their files there." u

Philadelphia opposes direct interview [] suggesting pretext approach. Washington Field Office (WFO) advises [] extremely uncooperative and, in WFO's opinion, suitable pretext could not be devised. u

In all probability, [] will receive any official contact by FBI with uncooperative demeanor and abuse; however, in view of his comments, the fact a successful pretext approach is most unlikely, and the need for immediate action, if approved we will instruct that an immediate attempt be made to interview him. If he is not receptive, he will be put on notice that the theft of official FBI records or the knowledge or possession of same constitutes a felony and a possible violation of the Espionage Statute. u

This is in response to memorandum J. J. Casper to Mr. Mohr dated 3/17/71 which listed items in SAC Letters taken during the burglary of the Media, Pennsylvania, Resident Agency and which memorandum requested that the divisions responsible for items in the SAC Letters comment concerning the sensitivity of the information and report instances of its usage by the thieves. *gmm*

Paragraph (G) of SAC Letter 71-7 dated 2/16/71 entitled Ten Most Wanted Fugitives Program is one of the above items. This letter, which was prepared by the Fugitive Section of the Special Investigative Division for the purpose of putting pressure on the field concerning Ten Most Wanted Fugitive cases, related primarily to the responsibility of the various offices to undertake independent, self-initiated investigation regarding these cases and to submit to the Bureau a summary of exactly what each office is doing with regard to these cases. *u*

The letter does make general mention of the fact that a number of such subjects are in the "New Left" category and refers to the need for developing sources and informants in connection with such cases. No reference is made to sensitive techniques and there does not appear to be anything in the letter which would be particularly harmful if disclosed. *u*

ACTION:

On 3/16/71, SA George A. Berley of the Laboratory, at the request of the Philadelphia Office and with Bureau approval, examined cabinets, desks, locks and doors at the Media, Pennsylvania, Resident Agency in connection with the burglary of that Resident Agency on 3/8-9/71. u

The main entrance door to the Resident Agency is secured by two locks. The subjects had applied a wrench to the lower cylinder in an attempt to force open the lock, leaving marks on the cylinder that appear suitable for comparison with any suspect tools recovered. Marks were also found on the pins in this lock characteristic of those produced when an attempt is made to surreptitiously open a lock with locksmith-type "picking" tools. The second lock on this door bore no toolmarks or other evidence that an attempt had been made to open it. u

There is a second entrance door to the Resident Agency which is not used. The lock on this door also bore marks characteristic of those produced by locksmith-type "picking" tools. Surreptitious entrance attempts of these outer doors appear to have been unsuccessful. Accordingly, it was necessary for the burglars to use force. u

Entrance to the Resident Agency was gained through this second door. No toolmarks were found on the doorframe or door. Force was applied against the door, causing the boltkeeper to be torn from the doorframe. A large, two-door cabinet behind this door had to be pushed aside to permit entry. u

A third hall door secured by two locks bore no evidence of having been tampered with. u

Re: MEDBURG

The desks in the Resident Agency had been forced open by prying the middle drawers. Two of the desks bore pry marks that could have been produced by a pry bar having a 1 to 1 1/2-inch wide bit; however, none of the toolmarks present on the drawers and desks are sufficiently characteristic to permit identification of the particular tool or tools used. u

Five cabinets were opened by the subjects. Marks of the type caused by lock picking tools were present on the cabinet in the room occupied by the Senior Resident Agent. No toolmarks were found on any of these cabinets suitable for comparison or identification purposes. u

The above information is being furnished the Philadelphia Office by Laboratory report. u

During the night of March 8, 1971, unknown individuals burglarized the FBI Resident Agency at Media, Pennsylvania. Official documents, reports, and other material, the property of the FBI, were stolen. Subsequent to the theft, certain representatives of the news media received a letter from a group calling itself "Citizens Committee to Investigate the FBI" which claimed credit for the burglary. *u*

On March 18, 1971, Deputy Assistant Attorney General Leon Ulman was contacted by Messrs. John A. Mintz and Henry A. Schutz, Jr., of this Bureau in order to discuss the possibility of obtaining a court order to forestall public disclosure of FBI documents which had been stolen. Mr. Ulman indicated there was little precedent for such an order; however, a possibility existed such an order might be obtained if an adversary party could be named in the civil action. He suggested this matter be discussed with the Civil Division or the Division having jurisdiction over the case. *u*

REC-79 52-94527-130

In view of the above, it is requested serious consideration be given to instituting a civil action for the purpose of obtaining an injunction to prohibit dissemination, disclosure, or other publication by any person involved in the burglary or any other person acting in concert with the burglars, or by any person or corporation who might publish the contents of documents taken from the FBI Resident Agency with knowledge of their origin.

In line with our conversation with Mr. Ulman, the "Citizens Committee to Investigate the FBI" could be named as the adversary party. U

It is requested the Criminal Division advise as soon as possible the feasibility of initiating such action since the possibility exists those associated with this group may make a public disclosure of stolen FBI material in the very near future. U

NOTE: Philadelphia contacted Xerox Corporation representative, Philadelphia, who advised that the Xerox Corporation Branch at Webster, New York, would be able to analyze the Xerox copy press release furnished to the press by the "Citizens Commission to Investigate the FBI" and identify the model machine used to copy the release; the possible source using this quality of paper; the quality of the toner used and whether it is a Xerox product or other commercial toner. This would narrow the search for a suspect machine and Xerox through regional offices could pinpoint users of non-standard Xerox supplies. This was discussed with a representative of the FBI Laboratory who concurred that Xerox Corporation would be in the best position to handle this analysis as Xerox Corporation maintains a complete listing of companies leasing their equipment and the type of paper and toner used by each client. This would result in the most expeditious handling.

THEFT OF GOVERNMENT PROPERTY

This is in reference to our letter of March 18, 1971, setting forth details relative to captioned matter and advising that no active investigation will be conducted concerning this offense relative to defendants or unindicted co-conspirators in the East Coast Conspiracy to Save Lives (ECCSL) case, nor will such individuals be interviewed by the FBI without clearing same with the Department. u

[redacted] of the Department who is handling the prosecution of the ECCSL case had previously requested unindicted co-conspirator [redacted] not be interviewed after he was reported in the press as having received a press release from a group calling itself the Citizens Commission to Investigate the FBI, which claimed credit for the burglary. u

[redacted] known activist and Berrigan supporter, on March 15, 1971, during a discussion of the ECCSL at Catholic University made reference to this burglary and remarked, "We have been interested for some time as to what they had in their files there." When interviewed on March 18, 1971, by FBI Agents he denied complicity in the burglary or knowledge of those involved. u

At the outset of our interview [redacted] FBI Agents observed [redacted], one of the defendants in the ECCSL case, on the premises. He was not interviewed, departing the premises as the Agents identified themselves to [redacted]. Later on March 18, 1971, at a public appearance at Bloomsburg State College, Bloomsburg, Pennsylvania, [redacted]

Result of examination:

It was determined that the typewriter impressions on

typewriter used to prepare Q6. u

Due to the lack of sufficient comparable letter
combinations, it could not definitely be determined whether the
typewriter impressions on Qc2 were or were not prepared on the
typewriter used to prepare Q6. However, some differences were
noted in the questioned typewriting on Qc2 and Q6 which indicate
that they may have been prepared on different typewriters. u

Following the burglary of the Media Resident Agency, "The Citizens Commission to Investigate the FBI" issued a typed press release which has been disseminated to Congressmen, news media, and other individuals. The concluding paragraph in this news release states, "In doing this, we know full well the legal jeopardy in which we place ourselves. We feel most keenly our responsibilities to those who daily depend upon us, and whom we put in jeopardy by our own jeopardy. But under present circumstances, this seems to us our best way of loving and serving them, and in fact, all the people of this land." u

It is believed similar phraseology, referring specifically to "jeopardy," was issued following the attack on a draft board or a commercial establishment during the past year. Each office should review its files concerning break-ins to determine if any news release or public statement can be located similar to that issued by the Citizens Commission to Investigate the FBI. Any positive results obtained from this review should be furnished immediately to the Bureau and the Philadelphia Office. u

Reference W. C. Sullivan to Mr. Tolson memorandum 3/22/71 setting out facts concerning recovery of copies of documents from Congressman Parren J. Mitchell (D-Md.).

Sixteen of the 17 items relate to work of Domestic Intelligence Division; one to fugitive-bank robbery investigation handled by Special Investigative Division. Each is being individually assessed on expeditious basis and results will be forwarded.

Preliminary review has determined 15 are Bureau documents (none classified). Two are not Bureau documents: one is typewritten report on letterhead of Swarthmore Police Department reporting a meeting between police and Swarthmore College officials regarding student protest; second is typewritten letter on stationery of University of Idaho addressed to Soviet Embassy, Washington, D. C., innocuous in content. Inquiry initiated to determine how and why this item in possession of Resident Agency.

Eleven of the 17 items have not been previously identified as among those stolen.

REP. PARREN J. MITCHELL
FBI violates rights.

Black Lawmaker Raps FBI 'Spies'

Students, Pacifists
Targets, He Says

By JOSEPH BARSONI

A black congressman from Baltimore, Md., speaking here has charged the FBI with spying on "peace" and "black student" groups.

U. S. Rep. Parren J. Mitchell claims to have received copies of files stolen from an FBI office in Media, Delaware County, indicating investigations and surveillance of persons in these groups.

his first term in Congress, said his claim before the third annual community service awards dinner of the Guardians of Greater Pittsburgh, held last night in the Chatham Center ballroom.

The Guardians is an organization of black police and firemen.

Mitchell said two documents were delivered anonymously to his Baltimore office on Friday.

One was a copy of a newspaper story saying the FBI office in Media had been burglarized. The second was from a group called the "Citizens Commission to Investigate the FBI" which Mitchell said admitted stealing the files.

Mitchell would only say the documents deal with "the University of Maryland Eastern Shore Campus at Princess Ann, Md., which is a predominantly black campus."

Not condoning the burglary, Mitchell, however, was incensed over the idea of the government's investigating peace and black student groups.

"It appears if a group bears in its name 'freedom', 'Afro' or 'Black', it is suspect and therefore infiltrated," he charged.

He said these investigations are a violation of civil liberties which "could destroy democracy more swiftly and more effectively than an external international force could do."

[redacted] Washington Bureau, "Los Angeles Times," telephoned my office at 10:52 a.m. 3/24/71 and spoke to Bland. [redacted] said that the Washington Bureau of the "Los Angeles Times" was in receipt of a packet of material ostensibly from the Media, Pennsylvania, burglary of the FBI office, which packet had been postmarked at Princeton, New Jersey, and mailed to [redacted] a reporter with the "Los Angeles Times." [redacted] asked if the FBI wanted this material and advised that it could be picked up at the "Los Angeles Times" office, 1700 Pennsylvania Avenue, N.W., Washington, D. C., Room 730, at any time. He said that he, [redacted] and/or their [redacted] [redacted] would have this packet of material. u

SAC Kunkel, Washington Field Office, was advised and instructed to pick up this material immediately and furnish the same to the Bureau for appropriate action. u

The Assistant Attorney General, Security Division, Department of Justice, has made a request of Assistant to the Director Sullivan that a review be made of documents which were taken in captioned burglary and to pinpoint those documents which would be susceptible to misinterpretation or would have publicity value. u

The documents pertaining to the Administrative Division consisted of copies of applications and portions of applications which were either filed at the Media Resident Agency or directed to the Resident Agency in connection with investigations to be conducted. Additionally, there was one interoffice communication from Pittsburgh to Philadelphia requesting advice as to when an applicant was appointed and 3 Bureau communications to Philadelphia of the form-type variety instructing that an individual be furnished information concerning Bureau employment and if interested, be processed accordingly, and the other instructing that investigation be brought up to date. u

Since the stolen documents contained only that information supplied by the applicant concerning the background relating to himself and family members and the letters did not disclose investigative results or identities of individuals contacted in connection with investigation, it is felt none of the material would be susceptible to misinterpretation or have publicity value.

of the situation involving a burglary of the FBI Resident
Agency at Media, Pennsylvania, during the night of
March 8, 1971. U

Those responsible for this burglary stole
material pertaining to criminal, applicant and security-
type investigations, as well as certain instructional and
training documents. Portions of this material have been
furnished anonymously to Senator George S. McGovern of
South Dakota, Representative Parren J. Mitchell of
Maryland, and The Washington Post. U

The Attorney General has been advised by
separate communication. U

During the night of March 8, 1971, individuals unknown made forcible entry into the Media, Pennsylvania, Resident Agency which is located on the second floor of the County Building, Front and South Avenues, Media, Pennsylvania. Entry was gained by jimmying one of two permanently locked doors and moving two cabinets located immediately inside the door. All Agents' desks and locked file cabinets were pried open. All serials and notes in these cabinets were missing. ✓

It is estimated material taken consisted of investigative data pertaining to criminal, applicant, and security-type investigations, as well as certain instructional and training documents. There was no indication that any attempt was made to force open a locked combination safe containing firearms, manuals, handbooks, and other FBI material. ✓

Following the disclosure of this burglary, an intensive investigation was initiated in order to identify the subjects. In addition, our Philadelphia Office was instructed to ascertain exactly what material had been stolen and copies of all such items are to be furnished FBI Headquarters. Our investigation has suggested individuals connected with the East Coast Conspiracy to Save Lives (ECCSL) may be involved in the burglary. Recognizing the impact disclosure of the contents of the stolen material could have on FBI operations, discussions were initiated and are continuing with the Department of Justice as to what the possibility is of obtaining a court order which would prohibit public disclosure. ✓

According to a source one [] has been developed as a suspect. [] is currently serving an 18-month prison term after having been convicted in Federal Court for acts of vandalism in space occupied by the FBI

In connection with our investigation into the March 8, 1971, burglary of the Media Resident Agency, Philadelphia Division, investigation thus far would indicate the possibility of involvement by those associated with the East Coast Conspiracy to Save Lives (ECCSL). u

In this regard, one [redacted], an unindicted co-conspirator in ECCSL, has indicated he received one of the letters from the Citizens Committee to Investigate the FBI, the alleged perpetrators of the Media Resident Agency break-in. u

Departmental Attorney [redacted] in the ECCSL case, was contacted March 16, 1971, by a representative of the Domestic Intelligence Division, with respect to [redacted] possible involvement in captioned matter, at which time [redacted] indicated [redacted] will be included in a superseding indictment regarding ECCSL, thereby making him a defendant. In view of this possibility, he did not want [redacted] interviewed by the FBI at this time. u

ACTION: In view of the current prosecutive situation in the ECCSL investigation and considering the position taken by [redacted] concerning [redacted] Philadelphia has been instructed to interview no ECCSL defendants or unindicted co-conspirators without prior Bureau authority. Neither will active investigation be conducted with respect to these individuals, without first clearing with the Department. u 185

At that time, she stated that she was making a survey of firms in the area regarding equal employment opportunities and fair employment practices for women. Subsequent to MEDBURG, a neighborhood investigation reflected that this unsub female did not call on any other firms in the immediate area of the Resident Agency. This would indicate that the unsub female may have been casing the Resident Agency. U

In light of the above, the identification of this unsub female becomes of paramount importance in this case. U

A lead is being set out to have this composite displayed to logical individuals SUBJECT TO THE FOLLOWING RESTRICTIONS SET OUT BY THE BUREAU: U

Under no circumstances should the artist's conception be furnished or exhibited to any source in the news media until such time as specific Bureau authority might be received. U

In addition to the above, Philadelphia directs that in exhibiting the composite that inquiry be made only as to whether the artist's conception appears to be identical to or resembles someone known to the person to whom the composite is exhibited. U

No reference should be made to MEDBURG or the Media Resident Agency since the unsub female's visit might possibly have been legitimate and she might possibly be innocent of involvement in MEDBURG. U

The composites should be under control of Bureau personnel at all times and not released to or loaned to individuals outside the Bureau. U

LEADS

ALL RECIPIENT OFFICES:

1. Will exhibit the artist's conception to all logical security and selective service sources and informants. U

PH 52-7165

2. Will exhibit the artist's conception to Bureau personnel familiar with security and selective service matters and subjects. \

3. Will exhibit the artist's conception to selective service and/or industrial personnel, who may have been subjected to break-ins, sit-ins, demonstrations and picketing by anti-war, anti-draft people. \

4. Will not limit the exhibiting of the artist's conception solely to the above-listed leads. Consideration should be given to exhibiting the composite to any source or individual (bearing in mind Bureau restrictions) who might be of help in identifying the unsub female. \

In referenced Bureau teletype, the Bureau instructed that all leads must be handled expeditiously with pertinent results furnished by telephone or teletype to Philadelphia, MEDBURG. \

You asked for our views on a proposal made in March 22, 1971, memorandum from Mr. Sullivan to you re Medburg (attached) that the Bureau contact certain Senators and Congressman to enlist their aid should they receive any of the documents stolen in this case. u

We agree with the proposal subject to one suggestion made later. It is entirely legal and ethical for us to ask the help of members of Congress in an attempt to solve a Federal crime. We see no problem here. u

There might be a problem if we contact principally Negro members of Congress or principally those with a reputation for being "liberal." Such action on our part would indicate that we have placed these members of Congress in a certain category, those most likely to be considered sympathetic to the culprits in this case. For that reason we suggest that the number of members of Congress contacted on this point be expanded enough to make it clear that we have contacted a representative number of Senators and Congressman with no emphasis whatsoever on race or politics for philosophical leanings. We should contact whites and blacks, Republicans and Democrats, conservatives and liberals. This will necessitate contacting some who are of such political persuasion that we know that the culprits in this case are unlikely to send any documents to them. But in contacting more broadly, we will avoid any implication of placing on any Senator or Congressman an apparent stigma of being the type whom culprits would consider favorable to their cause. u

With this slight modification, we find nothing wrong with this proposal. u

RECOMMENDATION:

That the identities of Senators and Congressman to be contacted be expanded as above indicated. u
